01 PROFILE

Hello! I love to build applications that solve problems and make businesses thrive. It gets me excited to work on different technologies that meet this goal. I have hands-on experience building enterprise web applications with a strong aptitude for learning new technologies and skills in meeting aggressive goals. With this experience, I have become proficient in writing clean, readable, testable, and maintainable code. As a software engineer, I have had the opportunity to build enterprise web applications using tools such as Html, Css, JavaScript, ReactJs, NodeJs, C/C++ & Python.

02 EMPLOYMENT HISTORY

Aug 2022 — Present

Nairobi, Kenya

Software Engineer Intern at Alx_africa

- Served as a dedicated and supportive Intern in a fast-paced environment.
